

**2009 JCI Leadership
Summit**
**Commitment to
Action**

Commitment to Action

International Level

1. Training
2. JCI Awards
3. JCI Events

National and Local Levels

4. Green Officer
5. JCI Projects

International Level

1. Training

Development and implementation of an Environmental Leadership Program designed by JCI to train members and the wider community in areas including but not limited to:

- teaching the causes and impacts of climate change
- showing possible solutions
- explaining how to change behavior

International Level

2. JCI Awards

Implementation of a Best Green Company Award with the possibility of looking for a partner to help measure environmental impact

International Level

3. JCI Events

All JCI Events to adopt environmentally sustainable principles including but not limited to:

- reduction of heat and air conditioning
- reuse of materials where possible
- use of recyclable materials
- innovative use of technology for information deployment

National and Local Levels

4. Green Officer

Every JCI National Organization will have one individual member responsible for encouraging environmental and sustainability initiatives at the local and national levels.

National and Local Levels

5. JCI Projects

Encouragement of every JCI National and Local Organization to engage in at least one project annually that addresses climate change under the areas of:

- water
- energy
- biodiversity
- transport
- recycling

(Internal measures can include 100% Efficiency Award)
